Book Collection 2 Report

Github Link: https://github.com/FA23-CSCE431-SoftEng/assignment-1-parkerjacob37/tree/main

Screenshots:

EXPLANATION: I made a mistake in Book Collection Part 1 and did not see the second page, leading me to implement all of the fields there. I created a flash based set of tests that check for 1 sunny day case (all fields correctly entered), and 4 rainy day cases (1 empty input for each of the four field). This screenshot shows them successfully completing. I apologize for not having the "failing" test cases since I already implemented the additional fields.
